

CERI Rapid Response Plan (RRP) Assessment Tool Version 200811

Assessment prepared by: _____

Date: _____

Earthquake of Interest

Geographic Location: _____

Origin Time: _____

Latitude/Longitude/Depth: _____

Magnitude Information: _____

0. Initial Decision

Who decided to implement the RRP? _____

When was the RRP officially implemented? _____

What elements of the RRP were implemented in part or in full?

Verification and Notification	N	in part	in full
Field Studies	N	in part	in full
Information Response	N	in part	in full
Assessment	N	in part	in full

1. Verification and Notification

Section assessment prepared by: _____

Date and time verified hypocenter was derived: _____

Person(s) responsible for verified hypocenter: _____

Person(s) responsible for verified magnitude: _____

CERI Information Coordinator: _____

Was the Information Coordinator updated on location in a timely manner?	Y	N
Was the CERI phone message updated in a timely manner?	Y	N
Was the ENS updated in a timely manner?	Y	N
Was the state Emergency Management Agency contacted?	Y	N
Was publically available information on the CERI webpage accurate?	Y	N
Was CERI-derived public information consistent with the USGS?	Y	N
Were CERI onsite personnel kept properly informed?	Y	N

Additional comments:

2. Field Studies

Section assessment prepared by: _____

Person(s) responsible for field deployment: _____

Personnel taking part in field deployment: _____

Number and type of sensors (please include a map of temporary station locations):

Date of initial deployment: _____

Date instruments were removed: _____

Was funding sufficient for temporary deployment? Y N

Did costs exceed initial estimates? Y N

Were instruments available for deployment in a timely manner? Y N

Were instruments in working condition at the time of deployment? Y N

Were deployment problems encountered due to technical issues
with the available instrumentation at CERI? Y N

Did students or non-network related staff/faculty participate
in the deployment planning? Y N

in the deployment field work? Y N

in temporary network maintenance? Y N

in network removal? Y N

in post-deployment analysis? Y N

Were significant siting problems encountered that could be remedied in the future? Y N
If yes, please explain.

Was there sufficient manpower for post-deployment archiving/analysis? Y N

How successful was the temporary deployment? 1 2 3 4 5

Additional comments:

3. Information Response

Section assessment prepared by: _____

Person(s) responsible for information response: _____

Personnel taking part in information response, including media interviews:

Were talking points prepared following the RRP template? Y N
If yes, please attach a copy

Were new Historic Damage/Tectonic Summaries prepared and filed for future use? Y N

Were the talking points disseminated to all personnel talking to media? Y N

How effective/useful were the talking points? 1 2 3 4 5

Was a Coordination Desk implemented? Y N

Was the Coordination Desk effective/useful? Y N

Estimate how many media interviews were conducted for
Radio _____

Traditional print _____

Television _____

Other

Estimate how many media interviews were conducted
At CERl _____

At University of Memphis _____

Offsite _____

Additional comments:

4. Assessment

Within how many months of the mainshock was this assessment conducted? _____

Could this assessment be improved? Y N

Suggestions:

This assessment was reviewed by the CERI Rapid Response Committee on _____.

This assessment was reviewed by the CERI Director on _____.
