

Data Analysis in Geophysics

ESCI 7205

Bob Smalley

Room 103 in 3892 (long building), x-4929

Tu/Th - 13:00-14:30

CERI MAC (or STUDENT) LAB

Lab - 10, 9/26/13

First hour

IRIS Data Products
Webinar

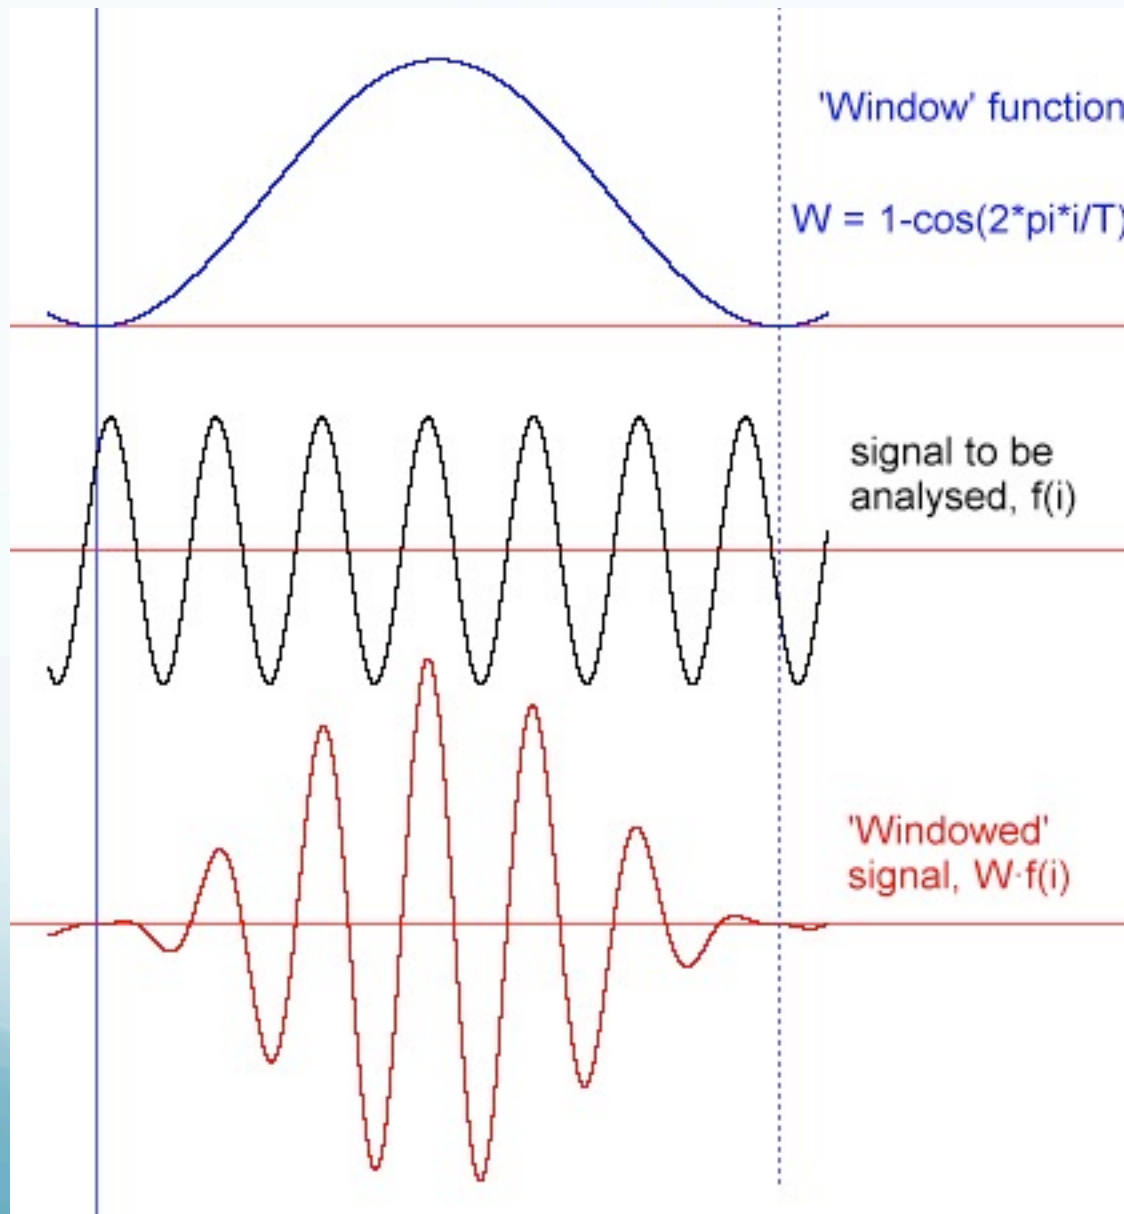

SAM: other commands

`correlate`: computes the auto- and cross-correlation functions.

`convolve`: computes the auto- and cross-convolution functions.

SAM: other commands

hanning: applies a "hanning" window (recursive smoothing algorithm) to each data file.

SAM: other commands

Other windows (and hanning also) available with `taper` (which we have already seen).
